A Talk With a Norway Man

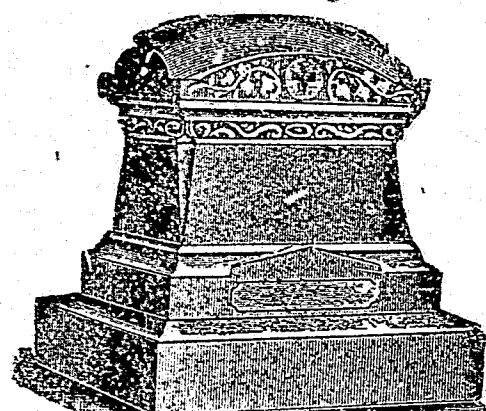

Mr. M. W. Sampson, prop. boat transportation business, of 19 Bridge St., Tell of His Experience

There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious sufferer from the dread kidney disease. We, therefore, give here an interview with a Norway man.

"It has been some time since I have used Doan's Kidney Pills, but from past experience I can recommend them to anyone in need of a good kidney medicine," says Mr. Sampson.

"A cold settled on my kidney and brought on attacks of backache. I was lame and unable to move any way, the pain in my back was so severe. My kidneys didn't act right and I had dizzy spells. A friend who had used Doan's Kidney Pills with good results advised me to try them so I went to Stone's Drug Store and got three boxes. After I had finished taking them the trouble left and I have been free from kidney disorder since."

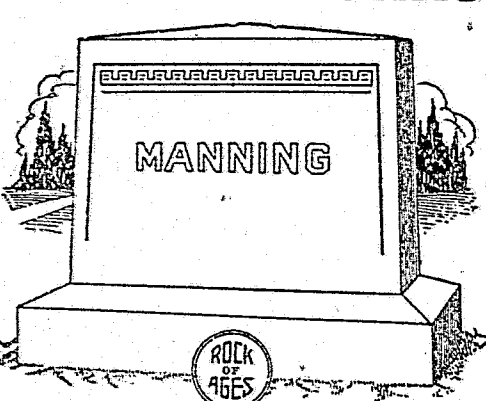

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sampson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

COMMUNITY IDEALS

Certain ideals that are becoming the common property of men in the remote corners of the earth have represented the aspirations of our truest Americans from the very beginning. American ideals are older than our nation for out of them our nation was born. And as the years have passed, these ideals have not only persisted, but we have given to them a richer and a fuller interpretation. New situations, with a broader and a more tolerant spirit widen the horizon and give new meanings to old faith.

The first ideal is Truth: It was this aspiration that laid the moral foundations of our government. The difference between North and South America may be partly accounted for by a recognition of the difference between truth seekers and gold seekers. Our fathers anxious to know the truth religiously, as they understood it, and determined to practice it, were so tremendously in earnest, that, when forbidden this liberty by a stupid English king, they left home and friends and property, and took that boat the Mayflower, which Carlyle says was freighted with the greatest cargo of democracy that ever sailed the briny seas. They landed at Plymouth Rock, made a clearing in the woods and used the logs out to make a church for they were religious, to build a town hall, for they were not anarchists, but to build a schoolhouse, for they knew as Americans have known ever since, that education is the very foundation of truth. In spite of their own immediate and pressing material needs this pioneer group made the gift that gave birth to Harvard University, the University outstanding in America today because of its insistence on academic freedom.

We have been learning some things about truth that our fathers did not know. We have discovered that truth does not come in chunks, that it is not let down from Heaven in a bulky package, inflexible, unchangeable, complete, with a halo over it to guarantee its divine origin. Truth is revealed to us gradually. Men who look for finality and inflexibility in human affairs have no place in this generation of thinkers. All things that have to do with life come by development, by an evolutionary process. This means growth, and growth means change—a difference between yesterday and today and tomorrow. Men have sometimes thoughtlessly boasted that they were 'standpatters,' hardly a real meaning in his word represents an attitude of mind inimical to progress. Growth necessitates change. You recognize full well that you do not honor your grandfather by stopping where he finished. Your grandfather's cap stones in building are not your cap stones, but your foundation stones. The dead hand of the past must never be allowed to throttle the throat of progress in business, in religion, in politics, or in any other phase of human life. One may accept a principle.

Not because it's old, And not because it's new, And not because it's orthodox, But just because it's true.

Another ideal of our fathers is liberty. Let us not err, as have some of the past generations, by insisting on liberty for ourselves and at the same time refusing to grant it to others. As we read his history today fairness forces us to censure misguided leaders in the colonies who tortured and killed witches and Quakers just as it forces us to condemn Charles the First of England. Human nature, today as always, needs to guard itself against the sin of intolerance.

Political liberty is discussed so frequently that we need to remind ourselves occasionally that liberty and tyranny

The Spirit of Service

It is possible to scan a proposition again and again, arriving always at the same results—and yet be quite wrong. Every man is limited to his OWN experience, his OWN viewpoint, his OWN observations.

Far be it from us to discourage independent thinking and self-reliance, but the greatest measure of safety lies in checking up your plans against the experience, viewpoint and observation of other men. If our Officers can be of any service to you in this direction, we will be most pleased.

We believe our present multiplied powers for helpfulness have come largely as a result of checking our viewpoint with that of our depositors and others.

TAXATION AND HIGH COST OF LIVING

The Oxford, Mass., tax rate this year, owing to the unusual conditions, there is \$52.10 on \$1,000—the highest in New England.—News Item.

Not so, Norway village is ahead with a tax rate of \$53.70 and for those who pay a sprinkling tax, it is more than that. It is state that the tax there will not be so high again, so that under the conditions here we are likely to stay at the top for several years to come. Our people ought to take pride in a management that keeps our tax rate ahead of all New England.—Comment.

Portland tax rate the same as last year \$31.60 on \$1,000. The Lewiston tax rate is less than that.—News Item.

The Boston Transcript, one of the old standbys of New England, and a supporter of the national administration, says that the bill which has passed the Senate and gone to a committee of conference of the two branches of Congress is an indefensible tariff bill. When that old party paper kicks, it indicates that there is something in the political sky but sunshine for the recreant politicians. Watch the storm that is brewing.—Comment.

The bonus bill is slated to reach the President during the week when it is expected that his veto will send it back to Congress—the house passing it over, the President's veto and the Senate sustaining it, which would end the measure for this session.—News Item.

I was disappointed on hearing the speeches at my party rally last week. Not one single thing was said about the matters most in people's minds. These are, lower cost of living, lower taxation, relief for the consumer, protection for every one who wants to earn an honest living and putting an end to strikes. I have severely seen such a small audience. I was greatly disappointed.—A Citizen.

There is likely to be a considerable shortage of fuel, the coming winter. The people back in the country villages are not used to burning soft coal, but they are used to burning wood. They had perhaps better prepare to burn some wood. It is a good time now to contract with those owning wood lots to have what they need cut and hauled at reasonable prices.—Comment.

Among all the great questions of the hour, one may be said to overtop all others and that is that everyone who desires to work to obtain an honest living shall be protected in the enjoyment of that right, otherwise, this country is not a land of liberty.—Comment.

LAKE KEZAR

Editor Norway Advertiser:

Your recent issue contained articles by Freeland Howe and William Sloane Kennedy on saving the beauty of Kezar Lake to know that it is even threatened, arouses one's ire at once. I am not a native like the above writers, but through many summers here have grown to love the old Pine State—her brooks, springs, ponds, lakes—especially Kezar.

Where can you find a lovelier picture east or west than to sit on the piazza of Brown's camps or canoe on dear old Kezar and look across to the White Mountains? Anyone who had ever seen the moon shining on this lake would die fighting for it. Destroy its beauty—never! Thousands of tourists from as far away as the Pacific Coast and England have revelled in its beauty and now it belongs to posterity, and it is up to every living soul to see that the Almighty dollar does not triumph. While in Alaska two years ago, I met some English people who lived in Australia and in talking discovered that they had seen Boothbay Harbor, Moosehead and Kezar. "They are indeed beautiful," said one of the men, "my wife and I are coming to spend a summer." And now the greed of man proposes to take away this beauty!

Even the primeval forests in this state are being threatened. For centuries men have wantonly hacked away at the old trees as they would have our giant redwoods if the government had not been wise enough to set the land aside. I am proud to say that Maine has the only National Park east of the Rockies and now it's up to every lover of the state to fight this "proposed" spoil. The very idea is preposterous. It will indeed be a brave "mill-concern" who can face the wrath of Maine. This state has always rallied to every call so now for S. O. S. to legislators and the governor.

COUNTY POULTRY PROJECT

The poultry project leaders in the various Farm Bureau communities of the county have arranged for poultry culling demonstrations which will be held this month. County Agent Lovejoy and O. C. Record, county project leader, have agreed upon the following schedule for the community demonstrations:

Thursday, Sept. 7, 10 a. m., South Paris, flock of E. B. Curtis; 1:30 p. m., Hebron, flock of G. I. Conant; 4 p. m., East Hebron, flock of D. B. Perry. Friday, Sept. 8, 9:30 a. m., Waterville, flock of A. L. Sanderson; 1:30 p. m., Norway, flock of Harry Goodwin; 4 p. m., Oxford, flock of F. A. Stanton. Wednesday, Sept. 13, 10 a. m., Rumford, flock of Mrs. Arthur Ladd; 2 p. m., Roxbury, flock of W. S. Reed. Thursday, Sept. 14, 10 a. m., Dixfield, flock of Ed Haines; 2 p. m., Canton, flock of Mrs. Burdell Wright. Friday, Sept. 15, 10 a. m., Sumner, flock of George A. Chandler; 2 p. m., Buckfield, flock of W. H. Conant. Tuesday, Sept. 19, 2 p. m., Bethel, flock of H. A. Lyon. Wednesday, Sept. 20, 2 p. m., Fryeburg, flock of Fred M. Kennerson. Thursday, Sept. 21, 10 a. m., Brownfield, flock of E. M. Clifford; 2 p. m., Denmark, flock of Thomas Brothers.

O. M. Wilbur, Poultry Specialist of the Extension Service, will assist in giving the demonstrations Thursday and Friday, Sept. 7 and 8. Mr. Lovejoy and Mr. Record will give the remainder.

Last year in nine demonstrations given in the county 373 birds were examined and 97 discarded as culls. The good hens laid 728 eggs during the week after culling and the culls laid only 27 for the same period. After seeing the demonstrations several farmers went home and culled their own flocks with splendid results. Reports received showed that they culled out 43 per cent. of their birds as non-layers and the 138 discarded in this manner laid only 20 eggs the week after culling.

Happenings on the Hill

The Summit Spring Hotel will close its twelfth season on Sept. 15. In spite of the unsettled weather conditions and the railroad strike this has been a most enjoyable season, with charming guests from many parts of the country. Strangely enough it is people from the South, East and West who best know our beautiful hill top. We have a view unsurpassed in the state, a spring which is a veritable marvel, and a flower garden which is a riot of color and bloom from early July until late September.

A party of five from the Hill took advantage of Wednesday's fine weather to motor to Bretton Woods and return. Visitors for the week include Mr. and Mrs. E. G. Metcalf, Mr. and Mrs. E. J. Hebert, R. E. Orr of Brooklyn, Mr. and Mrs. M. F. Tompkins of Forest Hills, L. I., and Mr. and Mrs. H. Walton of New York City.

Paul Brown, who has been driving the Summit car, has returned to his home in Cambridge, Mass. Herbert Callahan of Harrison has taken his place for the remainder of the season.

Walter Anderson of Greenwich, Conn., is paying his annual visit to the Hill.

Lawrence Seitz has returned home in order to take up his studies at Erasmus Hall, Brooklyn.

SHALL CHAPTER 213 OF THE PUBLIC LAWS OF 1921 ENTITLED "AN ACT TO PROVIDE FOR A FULL TIME STATE HIGHWAY COMMISSION, AMENDING SECTION THREE AND SECTION FOUR OF CHAPTER TWENTY-FIVE OF THE REVISED STATUTES, RELATIVE TO STATE HIGHWAYS, AND ALSO AMENDING SECTION THIRTY-FOUR OF CHAPTER ONE HUNDRED SEVENTEEN OF THE REVISED STATUTES RELATIVE TO SALARY OF THE STATE HIGHWAY COMMISSION," BECOME A LAW?

Referendum petitions signed in the aggregate by not less than ten thousand electors were filed in the office of the Secretary of State within ninety days after the adjournment of the regular session of the eightieth legislature, respectfully requesting that the above entitled act be referred to the people of the State to be voted upon in the manner prescribed in the Constitution of the State of Maine. The Governor, by proclamation dated October 29, A. D. 1921, declared said Act suspended and fixed Monday, the 11th day of September, A. D. 1922, as the date upon which the same should be referred to the people.

Those in favor of this act becoming a law will place a cross (X) in the square marked "Yes." Those opposed to the act becoming a law will place a cross (X) in the square marked "No."

ALBANY

Family Reunion

A family reunion at Rose Cottage, the beautiful home of Mr. and Mrs. Henry Plummer was held August 27. About fifty members were present. A large table to accommodate all was placed on the spacious lawn. Lovely viands of many kinds made a very dainty appointed table really artistic with its snowy linen and vari-colored frosting on the tempting cakes. Pictures were taken in the afternoon by Vivian Akers of Norway. Mr. and Mrs. Plummer were justly proud of their family, which was a very fine looking company.

The whole family, parents, children, grandchildren and great grandchildren are noted for their fine personal appearance. Mr. Plummer was born in New Hampshire and came to Bethel from Jacques River, New Brunswick, forty years ago. He went from Bethel to Lynchville in Albany thirty-six years ago, when he was engineer for Elliott and Bartlett at their spool mill for many years, until it was burned a few years ago. Mr. Plummer is a veteran of the Civil War. His maiden name was Caroline Butterfield. She is a member of the L. R. C. of North Watford. They have a camp on Kezar Lake named Camp Carolina in honor of Mrs. Plummer. They spend the summers at their home in this place.

Those present at the reunion were: Mr. and Mrs. Henry Plummer, Mr. and Mrs. Willis Plummer and four children from Berlin, Mr. and Mrs. Fodyce McAlister and five children from Paris, Mr. and Mrs. Aubrey Pettigall and seven children from Falmouth, Mr. and Mrs. Merton Hobson and daughter Leah from North Watford, Mr. and Mrs. Archie Plummer and three children from Berlin, Mr. and Mrs. Ernest Plummer of Watbury, Conn., Mrs. Myrtle Whitney and five children of South Paris, Henry Plummer, Jr., wife and child; Mr. and Mrs. Howard Whitney and child, Mr. and Mrs. Herman Butterfield and two children, Lyndonville, Vt.; Mr. Ross and daughter Grace, South Paris. There were two great grandchildren.

KEZAR FALLS

Three new members were added to the Methodist Church at the Baptism at Spectacle Pond, Sunday afternoon; Ruth Palmer by immersion, Mildred Mitchell and Muriel Doe by sprinkling.

Flora Ridlon has gone to Martha's Vineyard where she has been engaged to teach music in the schools.

Mrs. Melvin Libby and daughters, Viola and Irene, have returned from a visit to friends in Lynn, Mass.

Mrs. Emily Stetson left last Friday for her home in Lewiston.

Mrs. Lilla Gentelman and daughter Nellie, of Waverly, Mass., made a short visit to friends here recently.

Mildred Rounds, who has been the guest of Mrs. W. M. Chellis for a few days, returned to her home in Springfield, Tuesday.

It is reported that the Sokokis Lumber Co., have sold the Edgecomb farm to Everett Stanley.

The talk of the new bridge at this place seems to be materializing in action. Mr. N. Edwards, Bridge Engineer of the State Highway Commission, is expected here soon to make a survey while the conditions are favorable.

Owen Palmer of Eppingham, N. H., has purchased the Lucia Davis house and will take possession the first of October.

W. T. Johnson of Dauba, Maryland, but who once supplied for four weeks at the M. E. Church here, recently gave his friends at this place much pleasure by calling on them.

Russell Wills of Lewiston and John Fogg of Portland have been the guests for the past week of their cousins, the W. T. Nortons.

Emma Fox, who clerks in the bank at Conway, spent Sunday with her friends here.

LOCKE'S MILLS

Donald and Lester Tebbetts were in North Stratford, last week, on business.

Mrs. King Bartlett and Gwendolyn were in Lewiston, shopping, Tuesday.

Mr. and Mrs. Carroll Brewster of Lewiston were week-end guests of W. B. Read and family.

Mrs. Elmer Fiske and Mrs. Silas Keniston visited relatives in Watford, Friday.

Mrs. W. H. Crockett and Mrs. Owen Davis were guests at Wash Heald's, North Buckfield, Thursday.

The Quimby and Coreys of Portland are at Ethel Cole's camp for a few weeks.

Mrs. Grace Cole and two girls of Massachusetts are guests of her mother, Mrs. Jennie King.

SWEDEN

Mr. and Mrs. Eugene Maxwell of Lynn, Mass., and Mrs. Winifred Bartlett and son of Bethel were in town Wednesday, calling on their old neighbors.

Mr. and Mrs. Ambrose Brown of Lancaster, Mass., Mrs. Eliza Edwards and Mr. and Mrs. George Marr of North Bridgton visited Dr. A. L. Smart and family at their summer cottage, the Whitehouse place, on Wednesday.

Mr. and Mrs. Charles Sylvester of Cumberland Mills are visiting her brother, Seth Brackett.

Mrs. Martha Chandler has just returned home from a short stay with her sister-in-law, Mrs. Freeman Andrews of Lovell.

Mrs. Ernest Abbott has recently been visited by her brother, John Stearns and family of Fryeburg.

Mr. and Mrs. Edsel Bennett carried Mrs. Eunice Richardson and Mrs. Emma Wilson to Norway, Sunday.

Elizabeth Verrill of Bethel is spending several weeks with her mother, Mrs. Harold Merrill.

Elmer Stearns and family of Bethel were Sunday guests at Harold Merrill's.

The Merrill girls and Ruth Verrill are at home from the Lake View. They will return to Bridgton High School Sept. 11.

William Flint and Mrs. W. D. Moulton have recently been visited by their cousins, Dr. Clarence Nevers and family of Winthrop, Mass.

HEADACHE

LF is only a symptom of trouble somewhere in your system. If your headache comes from your eyes, consult an oculist at once; but if you have a headache with furred tongue, nausea, loss of appetite and constipation, it usually comes from disordered digestion or torpid liver and one or two doses of "L.F." Atwood's Medicine will give speedy relief by carrying off impurities and restoring the clogged digestive organs to their normal activity. In using this old reliable remedy you take no chances. It has a record of more than sixty years as a safe headache remedy.

DOES IT PAY TO WORRY ABOUT APPENDICITIS

Can appendicitis be guarded against? Yes, by preventing intestinal infection. The intestinal antiseptic, Adler-ika, acts on BOTH upper and lower bowel removing ALL foul, decaying matter which might start infection. EXCELLENT for gas on stomach or chronic constipation. It removes matter which you never thought was in your system and which nothing else can dislodge. One man reports it is unbelievable the awful impurities Adler-ika brought out. Sunday services at 10:45. The pastor will preach on the subject, "Waiting for God." Bible School at 12. Evening cottage meeting at Deacon Aldrich's at 7.
Monday choir rehearsal at 7:30 on the Hill.

Methodist Church Notes

The monthly meeting of the official board of the church will follow the devotional services on Thursday evening, Sept. 7.
Next Sunday morning, the sermon topic will be, "The Call for Workers." At the hour of evening worship the pastor, Rev. T. C. Chapman, will preach on the subject, "When the First Thing Comes First."
The Sunday school will meet at 9:45 a. m. on Sept. 10th, but for later Sundays will change to the winter schedule.

Last Tuesday evening, the officers and teachers of the Sunday school met with the superintendent, O. L. Stone. In addition to a very pleasant evening socially, considerable business was done in preparation for Extension Sunday, which is set for Sept. 24, and for the annual observance of Rally Day, which will come on Oct. 1st. At the preaching service of Sept. 24 a special effort will be made to secure attendance of all resident church members. Automobiles will be sent for those who cannot reach the church without help.

On Friday afternoon of this week the Win-One class of the Sunday school will hold a social and ice cream sale on the grounds of Mr. and Mrs. D. L. Joslin from 2 to 5:30 p. m. The invitation is general.

This church is asked to send a delegation to an important conference of workers which will meet in Portland on Tuesday, Sept. 12th. A lunch will be served at Chestnut Street church at 12:30 and the conference will follow. Bishop Fred B. Fisher will preside and give an address.

Ralph E. Chapman, who is living temporarily at North Paris, was in town Tuesday, looking up a place to locate. He sold his farm at Richardson Hollow, Greenwood some weeks ago and is stopping with the Littlehale family until he can decide on the future.

Ella Sanborn of Skillington, Bethel, was in Norway Tuesday on business and visiting friends.

Mrs. Arthur Dustin and daughter Marion of Greenfield, Mass., returned home this week after a two weeks' visit with her parents, Mr. and Mrs. William Sanborn.

Lawrence Record, who has been employed on a dairy farm in Turner since last October, is in town for a vacation and county fair.

Mr. and Mrs. Howard Linnell and Mrs. E. W. Scudler of Rochester, Mass., were week end guests of Mr. and Mrs. Edwin Richardson, Beal street.

Mr. and Mrs. Garfield Walker motored to Sanford, Saturday, for the week end and holiday.

Mrs. E. B. Rideout and daughter, Miss Edith Rideout, went to Lewiston, Tuesday where they spent a few days before going to Newton Center, Mass., where Miss Rideout will teach the coming year. Their address is 24 Pleasant St., Newton Center, Mass.

Mr. and Mrs. Lloyd C. Davis and their two children returned Saturday to their home in Hopedale, Mass. Mrs. Davis and children have been spending a vacation with relatives in Norway and South Paris.

Wilbur Rogers, who has sold his premises on Beal street to Harry Luck, will remain here until October 1, then occupy the upstairs apartment after Mr. and Mrs. Luck take possession.

Mr. and Mrs. Clayton E. Heath of Winthrop, Mass., are visiting their parents, Mr. and Mrs. T. L. Heath and Mr. and Mrs. James C. True. They arrived Saturday night, accompanied by Grafton E. Wentworth and Arthur Keach and daughter Ethel of Boston. The trip was made in Mr. Keach's machine. The rest of the party returned Monday afternoon.

Reaching Boston at seven o'clock Tuesday morning, a broken rear axle delayed them seven hours at Poland Springs.

Mr. and Mrs. Charles D. Noyes of Wellesley Hills, Mass., have been visiting his sister, Mrs. T. L. Heath and brother, Ernest Noyes and calling on other relatives and friends. They also visited his brother, John Noyes, in Greenwood, who lives on the old home farm. Mr. Noyes is chief inspector for the Hartford Steam Boiler Inspection & Insurance Co., Boston.

Services were resumed at the Universalist Church, Sunday. Four children were christened, Hope A. Lawrence D. and Jean A. children of Mr. and Mrs. Julius Patterson (nee Bertha Ann) of Wollaston, Mass., and Emma A. daughter of Mr. and Mrs. Fred Swan of Norway.

Ernest A. Merrill of Manchester, N. H., is visiting at his home here. Boys, 14 and 15 years old, wanted to sell score cards at the coming fair. Apply to Frank L. Brett or at this office.

W. O. Fuller and wife of the Royal and Courier-Journal called at our office recently. They were on their way to the Philbrook Farm at Shelbourne, N. H., to visit their daughter, Mrs. Howard Philbrook and the three grandchildren.

George R. Howe, the naturalist, was at the head of a party that hiked to Noyes Mountain in Greenwood, Wednesday. They camped over night and returned late Thursday. Flowers, birds and minerals were observed and the trip was principally for nature study under the guidance of an expert. The boys were content to secure Mr. Howe as leader as his time is occupied with writing and research labors. Members of the group were Henry "Jimmy" March, Edie Emerson, Fred Lewis, Roger Gates, Carleton Brown, all of Norway, and Gordon Hayes of Oxford.

Thelma Tracy, who has been working at the girls' camps at Waterford, has returned home.

Mr. and Mrs. Ralph G. Norwood and two children, Ruth and Paul, who have been spending two weeks at the H. H. Stuart cottage at the lake, returned to their home in Lovell, Mass., Monday.

Mr. and Mrs. Luther Emerson and son Edwin and Mr. and Mrs. George Emerson motored to Sherbrooke fair. The party traveled through Grafton, Lancaster and crossed the Derby line into Canada, a distance of four hundred miles. Two days were spent on the road and one day given up to seeing the sights at the big show.

THE NEW COATS

Ladies Misses and Children

There is just one way to learn of the beauty and desirability of these garments. You must see the new models and try them on, for it is only then that you can learn to your own satisfaction what smart coats can be obtained at this store.

The coats are cut roomy and full, many with the two way belt, button up close around the neck, many have fur collars. The materials are unusually good quality, many double faced cloths used, including the plaid back.

HOW WE "CATCH" DISEASES

Now that we have some idea of the character of "germs" or microorganisms of disease and the way they leave and enter the body, the next point is the way in which we catch a disease. The tracing of the course of separate diseases is interesting, but first it is important to know the general principles.

These minute one-celled plants can not move about freely; they do not fly, but we might say, they do swim. They live best on moist surfaces, and tend to cling to those surfaces. The germs do not float in the air, but come from some infected person.

After the germs leave the first, or infected person, there are several ways that can be carried to the second or susceptible person. That is, be direct or indirect contact.

For example, the germs that leave the body by way of the nose and throat secretions. There are hundreds of ways they can be transmitted from one person to another. For example—the direct method of kissing, or indirectly, as a moistened pencil passed to a schoolmate, only to be chewed in a moment of perplexity.

One man has said that "one case bites the other." The germs are so small that they are invisible to the eye. They are so small that they are invisible to the eye. They are so small that they are invisible to the eye.

The old worn out tubes in the boiler at the high school building have been replaced and new ones will be in place before the opening of school on Sept. 11.

The selectmen have forwarded an application to the adjutant for a German cannon or field piece. These genuine souvenirs of the World War are allotted to the state and will be supplied to towns on application so far as the allotment will permit. We must wait our turn but the chances are good for the gift.

E. H. Boynton, who years ago was our Oxford Depot correspondent, called at the office recently. He comes from Boston and holds an executive position with the Grand Trunk Railroad in that city.

He was calling on relatives and friends in this vicinity.

The New York Times claims the banner big tax of New England is in Oxford, Mass., with a rate of \$52.10 on a thousand. Mr. Seitz thinks they haven't heard from Norway with its tax of \$55.80 on a thousand. He says: "Norway village tax is ahead and Oxford, Mass., has nothing on his old home town."

Gladness in Service

Serve the Lord with gladness. Enter into his gates with thanksgiving, and into his courts with praise; be thankful unto him and bless his name. For the Lord is good—Psalm 100, 2, 4.

In most cases, burning indignation is a joke. Did you ever hear of burning indignation setting fire to anything?

DID YOU EVER STOP TO THINK

That any town without any definite program for the future is "out of luck." They had better get busy.

That you can put personality into business in a way that will make friends all around.

That competition between towns spurs them on to civic achievement.

That your newspapers are powerful institutions. They vitally effect the destiny of every citizen. They send their messages into every home.

That you should make every effort to keep your town wide-awake and growing.

THE NEW SILK DRESSES

Fashioned in the very newest styles. You will need but a moment's glance to reach the conclusion that these dresses are up-to-the-minute. They have all the new and desirable fashion touches that lift them above the commonplace. Mostly on straight lines, some having pleated flowing panels, others have the new draping. The materials are Canton Crepe, Crepe satin and Crepe-de-chine, beautifully trimmed.

Priced, \$19.75, \$22.50, \$24.75, \$27.50, \$32.50.

MANY NEW SHIRT WAISTS

A fresh new lot of Hand Made Waists, \$1.95, \$2.95, \$3.50, \$3.95.

Right out of their boxes and from the manufacturer, who has been supplying to us the waists we have been selling so many of, and which have created so much favorable comment and been in so great demand.

New CREPE-de-CHINE and GEORGETTE CREPE in very pleasing styles at \$5.95.

NEW PLEATED SKIRTS

We have secured many very attractive new models, pleated stripes, colors are black, brown and navy with contrasting bright colors.

Priced, \$5.95, \$7.50, \$9.95.

SKIRTS, extra large, 30 to 36 in. waist measure, navy blue, fine quality serge, at \$7.50.

Ladies' and Misses' Sport Hats

for Fall. Many styles, beautiful colorings.

\$1.50, \$2.00

WIRELESS WONDERS

Until now wireless messages have fallen on like the rain from heaven, and anyone who has a proper instrument could reach out his cup and receive his fill. A message intended for the information only of the sender and addressee is poured in to the ears of thousands of waiting listeners, and except for what protection a private code provides, it is known to all the world. And now Marconi, the original wireless wizard, announces through the American Institute of Radio Engineers his newly discovered method of so direct a method of communication.

That if you want any more farmers or home-makers to locate in your community ADVERTISE.

That if you can offer any special advantages as a desirable location for factories, branch plants, etc.—ADVERTISE.

That you will attract greater attention today than ever before if you ADVERTISE.

That your vast resources will receive the consideration their importance has long entitled them to, if you tell the world—ADVERTISE.

That the directing heads of manufacturers, investors seeking profitable outlets for capital, as well as those on the outlook for good farms and homes, are reading the papers looking for opportunities—ADVERTISE.

That the best results from any kind of advertising are obtained by "Keeping Everlastingly At It."—ADVERTISE.

That no matter what you have to sell, the columns of the newspapers will fill your needs in the surest and most economical way—ADVERTISE.

That if you want increased business—ADVERTISE.

That most newspaper readers are boosters. They pass on everything good, whether found in editorial or advertising pages.

VALUE OF SHADE

When the good old summer time comes the people begin to realize the value of shade. The trees that had previously seemed merely an ornament and a decoration to their street become a source of cooling and refreshment. Homes protected by their graceful shelter get more livable, and the streets where they have been located are more tolerable for the pedestrian.

The people who have been careless about tree planting sower in the arid spaces and their neighborhoods look at too hot and dry in summer to make that they are needed. But man is never meant to live in shadeless places. People who want a real home neighborhood will see that somehow their street and their house lot are well planted with good thick shade.

We have already had so many evidences of things accomplished which were previously "known" to be impossible that of disciples succeed in communicating with Mars or other planets, I fear we would not be half properly shocked with that surprise and unbelief which such an event really deserves.—Popular Mechanics.

PLAY OF ANIMALS

It is true that the relation between the disposition to play and the susceptibility to taming is very marked in animals; but it is not true that animals in the wild state play but little. Monkeys, even those that have never had the slightest experience with man, play "tag," "follow my lead," and many other games doubtless just as amusing, but less comprehensible to us.

In the Syrian deserts wild asses race with each other in such an exact, methodical manner that early travelers declared them partly human.

Sheep, goats and bears all play. People who deny that the bear is playful must have had their experience with grizzly bears or cubs; but the black bear is a regular clown and performs all sorts of antics merely for his own enjoyment. Black bear cubs play very much like kittens.

It is true that the rhinoceros and hippopotamus seldom display any spirit of fun, but the elephant, in spite of his bulk plays a great deal—sometimes in a violent manner.

Wild birds are often very playful. The Australian bower birds are said to build "play houses" much as children do, and play various games. Parrots are playful and penguins, those wonderful birds of the Antarctic, do practically nothing but play. To them life is one big holiday.

One writer, speaking of the tropical birds, says that they hold dances regularly at which the tango is not excluded, though most of the numbers are solo performances and would be billed as "eccentric dancing."

Even insects play; the sham fight is a favorite game (much as with puppies), and observers of ants have described them as pouring out of the ant-hill "scrambling, wrestling, jumping and pretending to fight, like a crowd of riotous schoolboys at play."

INCENTIVE TO SAVING

Some people save money easily and have a love of thrift for its own sake. But the majority of folks seem to need some definite thing to save for.

When the banks began to promote Christmas clubs, vacation clubs, etc., they found that a multitude of people who would not save money simply from the general purpose of thrift, would do so if you offered them some definite and attractive object to work for.

The same principle applies to owning a home. It constitutes a wonderful incentive. The idea of a pretty and convenient dwelling that shall make you independent and which you can develop and improve to suit yourself has fascinated the thought of multitudes of people. Innumerable folks who never previously could save a dollar have become able to do so when you planted in their heads this possibility of owning a home.

It has been the motive that gave them their start in life and has opened new possibilities of prosperity.

Obligations of this kind have a steady effect on people. It is something like marriage. When previously a man had squandered all his earnings on foolish pleasures, when he marries a wife, he has an incentive to use his money carefully and his ideals and ambitions are uplifted. The effort to own a home similarly concentrates a man's purpose on industry and thrift.

The man who buys a home on a mortgage finds that that debt is not so much a burden as an inducement. Men who have bought out business enterprises and given notes for them often say that the existence of that obligation had a wonderful effect to stimulate their energy and initiative. It is just the same in the effort to own a home. It brings out the best there is in a man.

SLOWING UP FOR SAFETY

In these days, automobile drivers ought to slow up for safety. The list of daily disasters at the railroad crossing should be a warning to every driver to watch his step in that place of danger. One may have a natural expectancy of many years of life yet to come. If so, he is fortunate and surely ought not to risk, by any rash act, the spoiling of such pleasant prospects.

There are drivers who do not pay attention when they approach tracks that are to be crossed. They go on thinking about things that are mere trifles compared to the serious question of safety of life and limbs. Only too often, there is a sudden, horrible awakening to the fact that the engine has "gone dead" right on the crossing, just as a train is bearing down upon them. Too late, comes the realization that day-dreaming is out of place at the grade crossing. Then the end comes suddenly.

What matters now all the plans about future prosperity and success? Thoughtlessness having taken the place where vigilance should have been on guard, every plan and hope and aspiration is suddenly terminated and nothing remains of the life that looked so promising, but sad memories in the minds of afflicted kindred and friends. Slow up for safety at the crossing. Make no effort to cross unless the coast is clear.—Piscataquis Observer.

CAMPING DAYS

The happy days of the summer-camp for boys and girls are drawing to a close and within a week the young people will have returned to the city. Their bronzed faces and sparkling eyes express more forcibly than words how thoroughly they enjoyed their summer vacation. The young folks find all attention the first few days after their arrival while they recount, prompted by pleasant memories, the many interesting experiences of camp life; the joyous days of swimming, rowing, paddling, riding, camp craft, nature study, land and water trips, the evening bonfires on the beach, with camp songs and stories, the thrilling exhibition of life saving and numerous other events which testify that Maine may well be proud of her beautiful country and many natural advantages which give young America an ideal summer playground.

WHEN RICHES ARE FORGOTTEN
The rich men, the money masters in all stages of civilization, have been quickly forgotten unless there was something else besides their money that entitled them to fame. Many wealthy men of Rome and ancient Greece do not live in our history, while other men who had no wealth who were in fact, very poor, like Socrates, are enshrined in the hearts of humanity. The world is only grateful to the men who served it. Unselfish is what the world worships, not wealth alone. It builds its monuments to men who serve it. Unselfish service, not money, immortalizes a life.

His Life Hung in the

Balance says

Hewett

"I don't believe Tanlae ever did any body any more good than it has done me, for after taking it a month I was able to do a day's work for the first time in over two years," declared Charles E. Hewett, well-known machine shop proprietor of Forestdale, Vt., and prominent in fraternal orders.

"Four years ago I went absolutely down and out with a nervous shock, and in spite of all I could do I simply could not get back on my feet. My wife could go to the shop and sell the gasoline and oil, but outside of that our business was at a standstill. My stomach was simply useless, for everything I ate caused me a world of suffering. My nerves were shattered, I could not sleep, my heart palpitated like a trip hammer, and my life was actually in the balance.

"Then I was told about Tanlae, and started taking it. The first bottle encouraged me to take it up, and now, stage by stage, it has brought me back to perfect health. Everybody in town knows of my wonderful recovery, and comment on it. Words fail to express my gratitude, and I only hope others may be benefited by taking it when they find out what it has done for me."

Tanlae is sold by all good druggists.

Auto Accident

A Ford touring car owned and driven by Arthur Brown turned turtle near the Sawyer place, demolishing the car badly and injuring one.

The car was traveling at a good rate of speed when the front wheel came off, causing the car to turn over several times landing in the ditch. Paul Dostie, who was riding with Brown, received bruises and severe scratches on both legs. Mr. Brown was unhurt.

Winnie Robinson, Alan Marston, Thelma Hevey and several other Hartford people attended the exercises at Bear Pond, Sunday.

Percy Davenport and two children, Delmont and Ethelyn, were visitors of his mother, Mrs. Effie Davenport, Monday.

Visitors at Mr. and Mrs. Dana Norton's one day recently were Mrs. Norton's mother, Mrs. Emma Bisbee, a brother Jonas Bisbee, a sister, Mrs. Viola Drake, and her daughter, Mary Drake and Mr. and Mrs. Norton's two daughters, Mrs. Olive Bisbee and Mrs. Cora Donnell all of Livermore.

NORTH NORWAY

Mrs. Lucy Skillings and granddaughter, Miss Pitts of Lewiston, were recent guests at Horace Hussey's.

Mrs. Spink and son of Wickford, R. I., who have been spending several days at Horace Hussey's, returned home Wednesday, September 6.

May Gould, teacher of English in the Crosby High School of Waterbury, Conn., visited several days at E. T. Jenkins', recently.

Howard Heath is helping Guy Curtis with some of his fall's work.

Mr. and Mrs. Howard Heath and son Cecil spent Sunday with Mrs. Heath's mother, Mrs. Alice Watson, Norway Center.

E. T. Jenkins was in Albany Tuesday, to attend Pomona Grange.

Claude Haskell has made his sons, Gerald and George, two very happy little boys, by buying them a burro. They are enjoying many a ride on Jennie's back or in a cart which they hitch her to.

Mr. and Mrs. C. D. Morse and sons, Frank and Arthur, and daughter Grace motored to West Paris, Sunday and called on friends, coming home through Locke's Mills.

NORWAY CENTER

Mrs. Irvin Brown has been spending a few days at Boston and stopped at several of the beaches along the way.

Cheer Up! Here's One GOOD Low-Priced Battery

Sim Heckle says his wife ought to be saving money. Bobbed hair—less grief with the hairdresser! Short skirts—less cloth to pay for! But where Sim gets bumped in the extra bills for silk stockings and little hats!

Some of the short-skirt, bobbed-hair batteries we've met up with are just about as saving as Sim's wife! Big economy on the surface—big expense in the long run. The CW Battery (Wood Separator) is a battery that wears a calico dress and old fashioned cotton stockings. But you can take our word for it—the value's there! Sizes for all cars; and we stand back of every one we sell.

Birthday Surprise Party

Mrs. Lola N. McAllister was given a
surprise party on her birthday, August
30, by her daughter, Inez McAllister, as-
sisted by Mrs. Carl Gammon.

When Mrs. McAllister arrived home for
supper, she was met by a number of re-
latives. She was ushered to the dining
room where four of her most intimate
friends awaited her at the supper table.

While supper was in session another car-
load of relatives drove in. The supper
consisted of everything fine to eat, in-
cluding two birthday cakes decorated
with pink and white candles and marsh-
mallows.

After supper games were enjoyed on
the lawn until all were nearly exhausted
and retired to the parlor decorated with
pink and white crepe paper, plants and
flowers.

There Mrs. McAllister went hunting in
various parts of the room where she dis-
covered many beautiful presents, in-
cluding hand embroidered table runners and
center pieces, chinaware, glass and others
too numerous to mention. A very enjoy-
able evening was spent by all, and the
guests departed at a late hour. All was
a complete surprise to the hostess. Those
present besides the family were Mr. and
Mrs. Eugene Chaffin, Mr. and Mrs. Wm.
Saleeby, Mr. and Mrs. Harry McKean
and daughter Lola, Mr. and Mrs. Carl
Gammon and daughter Carline, Harry
Patch and daughter of West Paris and
Eugene Flint of Lovell.

Purchased Swiss Bull
Chester A. Flint has recently purchased
of Frank Freemyer of Walhalla Farms,
Middleburgh, N. Y., a thoroughbred
brown Swiss bull. This animal is a di-
rect descendant of the richest blood and
the highest producing cows of the Swiss
breed in America. Mr. Freemyer has
been a leader of thoroughbred brown
Swiss cattle for 20 years, and has more
than 100 head in his herd, many of them
having been imported from Switzerland.
This herd is under State control, and ac-
cording to official records, is among the
finest in America. These cattle are a
blocky, well made type, and produce a
large quantity of milk, testing high in
butter fat.

The bull arrived a few days ago and
attracted much attention on his way to
Lakeridge Farm. He is a fine animal.
Some females from Mr. Freemyer's herd
will be purchased later.

Two Norway Teachers Go to
Massachusetts

Misses Gertrude O. Gardner and Lizzie
O. Lasselle left Friday for New Bedford,
Mass., where they have accepted positions
as teachers in the schools of that city, at
salaries of \$40.00 a week. They have
there four terms of ten weeks each. They
began teaching in the village schools here
They had taught, however, several terms
before. Both early lost their fathers,
one was born a few weeks after his death.

Miss Gardner was born in Buckfield, but
Miss Lasselle is a native of Norway.
Both early determined to follow teaching
as a profession. They have fully kept
up with the advance in the methods of
instruction in their grade and in fact,
have improved these methods and were
far better qualified to judge of what
was practical and best than anybody else.
Their reputation as teachers has steadily
grown and as primary instructors at the
time of their resignation and the accept-
ance of their new positions, they had no
superiors in the State of Maine and
probably no equals. They are held in
the highest respect by all who know them
and the affection of all their intimate
acquaintances. Their going away is
deeply regretted by all.

William W. Gallagher, who has been
head of the legal department of the Maine
Prohibition Unit since August 14, has re-
cently been appointed special assistant
United States Attorney. He is located
at Auburn.

Howard Shaw has everything ready for
a grand time at Lakeview Casino, Lake
Pennessewassee, during fair week Wednes-
day evening, Sept. 13, set apart as ladies'
night. Souvenirs to each lady holding a
dance ticket. Alfreda Annis, the pleas-
ing solo dancer, and Mona Martyn, vocal-
ist, will appear with other novelties.

Shaw's six piece dance team will play.
Verne M. Whitman, who attended the
summer session of Columbia University,
spent a short vacation at his cottage at
the Lake with Mrs. Whitman before re-
turning to Laconia.

BETHEL.
Mrs. Fred Aubin has returned home
from Abbott's Hospital, where she has
been for treatment.

Hazel Sanborn is spending the week
with her grandmother, Mrs. Ithiel Ken-
nerson.

Bean's Corner
Week end guests at J. H. Swan's were
Mr. and Mrs. Horace Swan and son Guy,
Mr. and Mrs. Howard Swan and daughter
Helen, Mrs. Gene Abbott and daughter
Hazel of South Paris and Mr. and Mrs.
Ward and daughter Marion of
Merrimack, and Sunday, the whole
party went to The Balsams. Mrs. Ab-
bott and Hazel Abbott remained for a
several days' visit.

George Harrington visited his brother,
Dana Harrington, over the week end.
Gene Rayford has a Chevrolet car.

Mr. and Mrs. Russ and son of Worces-
ter, Mass., recently visited her brother,
George Holmes and family. One evening
last week Mr. and Mrs. Russ and son and
Mr. and Mrs. Haines and family had a
corn roast at Songo Pond.

George Blake and auto party of Mas-
sachusetts are visiting at Herbert
Blake's and Mrs. Carrie Bartlett's.

Doris Field spent a few days last week
with friends at West Paris.

Mr. Latham of Litchfield is stopping
at Mrs. Lucetta Bean's.

SOUTH OTISFIELD
Mrs. Martha Brazier and Daisy Ames
have been visiting Mr. and Mrs. Fletta
Wolcott at Mechanic Falls for a week.

Fred Brooks went to Mechanic Falls,
Saturday.

Walter Jordan and wife spent Sunday
with Howard Ames and family. The two
girls went home with them.

Ben Dyer, wife and daughter Dorothy,
and Mrs. Lizzie Lamb went to Alfred,
Saturday.

Dayton Edwards and wife are visiting
their mother, Mrs. Lottie Edwards.
Most of the boarders at Pleasant Lake
Camp have returned to their homes.

The corn shop has begun operations.
Fred Fortier will soon move to their
home.

Frank Edwards from New Hampshire
called on Fletcher Scribner and wife re-
cently.

Mrs. John Brawn is feeling poorly.

Two Great Tire Values for the Light Car Owner

WHEN you note the prices quoted below on 30 x 3 1/2 inch ROYAL CORD and USCO Tires—bear in mind that while the price has been going down, the quality has been going up.

The New and Better USCO is bigger, with thicker tread and sidewalls, more rubber, better traction, greater mileage.

The ROYAL CORD is more than ever confirmed in its leadership as the measure of automobile tire values.

CULLING DEMONSTRATION

The ability to accurately judge by external characteristics whether a pullet will make a good layer, or become an excessive boarder in the flock, is being acquired by many Maine farmers. Helping them to become experts in this important line of poultry husbandry is one of the aims of the College of Agriculture extension service.

This month in practically every county in the state culling demonstrations are being conducted by the agricultural county agents, assisted by O. M. Wilbur, the extension poultry specialist, and the Farm Bureau poultry project leader. A year ago with their demonstrations the county agents in ten of the counties are making concerted plans for a culling campaign, to be conducted during the entire week of Sept. 11-16.

Last year 261 culling demonstrations were conducted in Maine under the auspices of the extension service agents. The total number of hens examined in these demonstrations was 15,964, of which 4648, or 29 percent, were removed as unprofitable.

The farmers on whose premises the demonstrations were held were asked to keep accurate account of the number of eggs laid by the entire flock in the seven days prior to the culling, and of the relative production of the separated good hens and culls in seven days after the culling. An analysis of complete records received from 227 of these farmers showed that the total number of eggs laid in seven days prior to the culling was 36,059. In the next seven days following the culling the hens retained laid 32,260 eggs, while the culls laid in the same period only 1489.

In addition, farmers who witnessed the demonstrations applied this acquired knowledge to culling their own flocks and their reports showed that they handled 6935 hens, removed 1936 as culls; that the number of eggs laid in a week before culling was 3494; number laid the following week by the hens retained, 2926 eggs; number laid by the culls in the same period, 85.

SWEDEN

Sweden Grange had an all day meeting and entertainment in evening. All reported a fine time.

Ruth Brackett is going to Bridgton High school this fall.

Gladys Moulton went with a party of Bridgton girls on a hike through the mountains.

Mrs. Seth Harriman is improving. Mrs. Sadie Hatch and party motored to Portland one day last week. Roads in fine shape.

Mrs. Lizzie Spear is some better. Roy S. Bacon and wife recently spent a day or two with Mrs. Bacon's aunt, Mrs. E. S. Plummer.

They returned to their home in Oakland, Tuesday, accompanied by Mrs. George Kimball of North Bridgton, to attend the Waterville Fair. Mrs. Bacon was formerly Ella Agnes Evans of this town.

There will be a poverty ball at Sweden town hall, Sept. 9. Prize given for best costume. All are expected to mask. Music, violin, piano and drums. Ice cream on sale at intermission. All those to pay fines who wear high collars and meat.

The girls left Tapawingo Camp, Aug. 29.

Schools began in Sweden, Aug. 28. Beatrice Saunders has returned from a visit with friends in Vermont.

The black rust has struck the potatoes in this section and makes them look bad. A light crop is expected.

Mrs. Seth Harriman still remains poorly. Mrs. Sarah Hill of North Lovell has been staying with her for a few days.

Black Mt.

Mr. and Mrs. Lester S. Briggs and Clayton Tower in company with Mr. and Mrs. Calvin G. Briggs motored to North Conway and several other places one day last week.

Clayton Tower has recently sold one of his nice horses to his uncle, Dexter Tower.

Edith Libby, who has been visiting her sister Mrs. Calvin G. Briggs, has returned to her home.

Ed. Tower and family motored to No. Conway one day last week to call on his brother, Dexter Tower.

Callers at C. G. Briggs', Sunday, were Claude Meserve and family, also Guy Monk and family of Bridgton, Mr. and Mrs. Percy A. Bryant and son Raymond of Conway, N. H., Fred Bowley and Will Pendexter of Fryeburg and Walter Harriman and family.

There is being a nice sporting camp built on the shore of Lower Kezar Pond on Calvin G. Briggs' estate.

Calvin G. Briggs has got through haying at last, having cut over five farms.

Wymene Tower is entertaining company from Portsmouth, N. H.

Uncle Cal Gordon, who has been in rather poor health, is much improved.

Mr. and Mrs. Arthur MacDonald of Laconia, N. H., are visiting Mr. and Mrs. Guy Tower.

Vernice Bouley has begun hauling his corn to the shop at Bridgton.

School has begun in this neighborhood with Christine Fox as teacher. She has taught here before, and it was with pleasure we saw her return for another term.

Roger Byron has been confined to the house with illness.

Ed Berry and son Charles are picking corn for Walter Harriman at the Harbor.

Calvin Briggs is hauling corn for Dan McAllister.

Wilbur Libby has been visiting at E. C. Tower's.

BOLSTER'S MILLS

George Hancock of Norway was a week-end guest at the home of his son, John Hancock.

CORRESPONDENTS GIVE PLEASURE

You would be surprised if you should know how much pleasure you extend to a lot of people by the simple act of sending in to the Advertiser the news of the day in your locality each week. People whether at home or away from home are interested in reading the home happenings and to learn what the different ones are doing.

The items which contain the greatest amount of facts—and dressed in the brightest colors with the detail of circumstances is sure to be the most interesting and some one is ready to read it and pass it on to another.

Some times items come rather irregularly from some towns and often times people write in and inquire why—saying: "I am interested especially in (such and such a town) and why is it there has been no news from that place for a long time. I wish you might have some items from there more often."

The other day a man said: "Saw in looking over the paper this week where a particular friend of mine from Massachusetts has been visiting relatives in the western part of the County. Have not heard from him for quite a number of years and have lost track of him. I think that the item would have been a little better if it told more but was glad that much. You see it was like this, the item read: 'George C. of Massachusetts and son and family are visiting relatives in town.' Well, I knew who the father was and my friend was the only son and knew they had relatives in that town so took pleasure in knowing he had been in Maine but would like to have known more about the visit, where they came from, where each was located when at home and a word as to where he was working would have added but as I say, was glad of the 'shell' that was recorded because I learned something from that much."

There are many things happening each week that more could be said about that would increase interest and prove that your town and its people are wide awake and are taking advantage of its opportunities and would give the people who are away a true idea of the doings in the home town.

MASSACHUSETTS VISIT

Interesting places visited and trips enjoyed by Mrs. A. E. K. Grover of Bethel, who is spending some time with friends there.

One of the enjoyable trips made was over the original "Squanto Trail", used by the tribe of Indians by that name, East and West Squantum street (as called now), follow the old trail, which is a much travelled thoroughfare; it leads past the place where the tribe held their pow-wows and built council fires. Up the shore is a bluff called Squaw Rock, owing to a face in profile made by rock formation. This location is rich in historic places and parts of it are primitive in appearance as in the days of Squanto, although there are many summer and year-round homes here: Lee's Inn and Squantum Inn are two popular club houses. Just across the water from the post office is the Victory plant, where so many destroyers were launched during the war period, and an interesting feature is that this plant is almost directly opposite the place where secret councils were held by the tribe ruled by Squanto, and by a little stretch of imagination we can see the smoke slowly rising in curling column from the dense forest, a feature peculiar to all tribes of redmen. "Squanto Rock" mentioned before, was the place where great feasts were held, and at low tide the "face" is in broad relief.

Clams were plenty, and at stated times there was a great gathering of dusky inhabitants, and the squaws had a busy time digging and preparing the clams for their mighty warriors. One can but feel a subtle attraction for these places where these children of nature gazed across the bay witnessing the wonderful works of the "Great Spirit" in wind and wave, trees and flowers. We people the purple shadows of evening with the dusky forms of young braves and maidens flitting here and there, while the older ones sit and stoically smoke, and the mother hulla her pappoose to slumber. Another interesting feature is the "cairn" marking the landing place of Miles Standish on his first visit to Boston.

"The First Railroad in America" We were privileged to view the scene of the first railroad built in America when motoring through Milton, Mass., recently. There were no ties, but granite of uniform dimension was laid parallel, and long strings of iron were bolted to the rock on which the wheels run. The bolts were handmade; the power used was oxen and horses over this road. From the Granite Hill Quarry in Quincy was hauled the granite blocks used in the construction of Bunker Hill Monument; it was shipped from the pier on Neponset river. The original "Frog" used on the road is there with a tablet of granite on which is inscribed the record of this wonderful "Frog", which in 1893 jumped from its resting place to Chicago, and was on exhibition at the World's Fair. After its mission here was fulfilled, it returned to its original home town and bed. It is in a good state of preservation, although exposed to all kinds of weather. Iron was iron in those days, and it is a sight worth going to see.

On another trip we passed beautiful estates. To one hill is attributed the home of sixty-five millionaires. In passing the Lodge gate of the Cabot estate, in Milton, we called to mind an old time toast: "Here's to Boston, the home of bean and cod, where the Lovells talked to the Cabots, and the Cabots talked only with God." Visions of retainers, powdered hair, silver buckle and velvet breeches and stately minuets pass in swift procession as we look backward on old Father Time's calendar. There is a beautiful estate in Squantum owned by Lotta Crabtree, an actress of note, many years ago. She is in the eighties now. Just think of having nuggets of gold thrown for bouquets. That was what Lotta Crabtree received as a tribute of appreciation from the miners of '49, when acting in a town of California.

We hope to visit more historical places, as well as places that will make history for coming generations.

POPULARITY OF MAINE

Approximately 62,000 foreign automobiles carrying over 150,000 people passed the State of Maine Publicity Bureau headquarters, Longfellow Square, Portland, between the hours of 8 A. M. and 8 P. M., from July 12 to August 26 inclusive, according to a statement issued by the bureau. The actual number of foreign cars, or those from other states than Maine, was 61,930, while the actual number of people they contained was 151,143. In addition, 374,232 Maine cars, carrying nearly a million people, passed the bureau during the same period of time.

Nearly 14,000 people called at the bureau for information during the same period, the only time during the season that a census was taken. Many other thousands called prior to July 12, and hundreds since, so it is safe to say that over 20,000 people were handled at the bureau during the past summer, all of them seeking information about Maine.

Of the foreign automobiles every state, except three, in the Union was represented, these three being Wyoming, Utah and Nevada. In addition there were cars from the District of Columbia, from Hawaii, and Porto Rico, and also from the Canadian Provinces of Alberta, Manitoba, Ontario, Quebec, New Brunswick, Nova Scotia, and Prince Edward Island. Nearly 10,000 letters asking for information about Maine have been received by the bureau during the past summer.

The business of the bureau has been so great that at one time during the rush it was necessary to have a staff of nearly a dozen people in order to take care of the correspondence and to give out information.

The bureau has been a tremendous success, and is so well established that it is now known all over North America, as well as throughout Europe and other sections of the civilized world.

The Man From Brandon

The musical entertainment and farce given at Dudley Opera House Monday evening was well patronized by the townspeople, about \$50 being realized which will be used to reduce the chautauqua deficit. The musical entertainment was given by local talent, Alden Chase, tenor, assisted by Richard Johnson, baritone, and Arthur P. Cushman and Mabel Berryman, pianists. Mrs. Elsie Wade Jackson gave several fine readings. The farce entitled "The Man From Brandon" was voted one of the best ever given here and nearly convulsed the audience with laughter. Following is the cast of characters:

Phil Lester, captain of Brandon football team
George Emery
Jeremiah Decker, M. D., form Kirby Insane Hospital
Moulton of Brandon, Miss Janet's nephew
Stanley Deshon
Miss Janet Spencer, a maiden lady
Berencie Moulton, Miss Janet's niece
Bertha Melvin, Berencie's friend
Charlotte Cummings
Elizabeth Cummings
Anne, Miss Janet's maid

MRS. LULA VANN FULTON, ARK.

Suggests to Suffering Women the Road to Health

Fulton, Arkansas.—"I used Lydia E. Pinkham's Vegetable Compound for a soreness in my side. I would suffer so badly every month from my waist down that I could not be on my feet half the time. I was not able to do my work without help. I saw your Vegetable Compound advertised in a newspaper and gave it a fair trial. Now I am able to do my work and don't even have a backache every month. I cannot praise your Vegetable Compound enough and highly recommend it to those who have troubles like mine. I am willing for these facts to be used as a testimonial to lead all who suffer with female troubles, as I did, to the right road to health."—Mrs. LULA VANN, Box 43, Fulton, Arkansas.

It is this sort of praise of Lydia E. Pinkham's Vegetable Compound, given by word of mouth and by letter, one woman to another, that should cause you to consider taking this well-known medicine. If you are troubled with such symptoms as painful periods, weak, nervous feelings, miserable pains in your back, and cannot work at certain times.

Here is a woman, who is so grateful and glad to be relieved from a painful and nerve racking physical condition that she wishes to tell all sick women.

Ralph and Myrtle Bacon, at the Little Jap.

The schools of this town open Monday, Sept. 11.

ALBERT A. TOWNE OF NORWAY

Democratic Candidate to the Legislature from the class towns of Norway, Waterford, Stoneham, Sweden and Lovell, is the logical candidate of all parties for the office to which he aspires.

He was born in Norway, July 11, 1878, educated in the common schools of Norway, graduating from the high school in 1896. He supplemented his education by a three years' course in Colby College, three years teaching in the common schools of Norway, eleven years as principal of high schools in Maine, five years as an automobile salesman and garage owner and three years as a practical farmer. He served as high school principal in the following towns, Waldoboro High School two years, Lee Normal Academy, two years; Buckfield High School, one year; Ashland High School six years.

After resigning from the school, he built up a successful business in Ashland, which, as owner and manager, he conducted for five years. He was twice elected to the board of Selectmen of Ashland and served three years on the school board of that town.

He is a member of Pioneer Lodge F. & M. No. 72 and Norway Grange No. 45. Always interested in all measures which tend for public improvement and very reluctant to enter a contest for any office, he is making a strong impression upon the voters of this legislative class and many Republicans have declared their intentions of voting for him. A vote for Towne is a vote for good government.

Harry Billings has made several business trips to Paris and Norway recently.

Mrs. Winola Billings returned home Monday night after a few days camping at the White Mountains with Ernest, Ada and Ruth Billings and others.

Anna Morse is working in the corn shop at Bryant's Pond.

Agnes Millett of Rumford helped Harry Billings in his store, Saturday afternoon and Monday while his wife was away.

Ruth Morse recently got bitten in the face by a dog and had to have three stitches taken.

Lewellen Buck has bought some slab wood of three horses and is hauling it to Rumford with his new Ford truck.

Mrs. Sadie Mearse and two boys of Massachusetts are visiting at Edgar Davis' and others.

William Bean of Sweden is staying here on his farm and doing chores.

Some of the Racing Auto Drivers at County Fair

Bill Johnson of Binghamton, New York is the latest entrant who has mailed his blank to the management of the auto races to be given on Friday, Sept. 15, at the Oxford County Fair. Johnson will drive a Stutz racing car, and will be a real contender for the cash and glory. Bob Underhill of Atlanta will drive his Hudson in the free-for-all and the class E open, and will be reckoned with at the finish. Ben Hawks of Boston has elected to drive a Special Chalmers, making five entries to date, with several more expected.

This class of cars should assure real speed and sensational racing, said Manager Johnson, who will be in charge of the races for the fair association.

The program of events will be determined next week, and will probably consist of a series of short races, flying start and time trials to set new track records.

The great success of auto racing everywhere will no doubt be duplicated at the Oxford County Fair on Friday, September 15th. As most of the auto races are now given on half mile tracks, the drivers have adapted their cars to track conditions, by reduced gear ratio, and by cutting down the cars to give them a low clearance.

The Eastern track record is 1 minute and 11 seconds for the twice around trip to make a mile, and several of the drivers have announced that this time will surely be lowered if conditions are favorable.

A great deal of interest has been aroused for the coming auto races, and the management wishes to emphasize that these races will be given on only one day, Friday, September 15th.

A Strictly Dry Goods and Dry Goods Apparel Store

That caters to your Dry Goods and Dry Goods Apparel Needs

The Superior Service which this Store is continually prepared to render, is daily and sharply emphasized by its Merchandise of Quality and price advantages.

While the Fall season has not yet fairly opened, the new merchandise is already crowding forward in great quantities, and we may say that in making the plans for the new season, the idea of a complete representation of that that is newest and most worthy has been uppermost in our minds.

We mean that this store shall present advantages for purchasing that are unusual for its size.

NEW COATS, SUITS, DRESSES

SKIRTS, AND WAISTS

Expensive Only in Looks

Why, even a coat with a high fur collar and muff-like cuffs with all the newest touches is inexpensive.

But whatever you want, a decidedly "dress up" coat or a sport coat, you'll find it here at very much less than you thought you'd have to pay.

If you haven't seen the new garments, by all means come and let our salespeople show you how good-looking, how absolutely "different" they are.

Now is the time to buy, while the styles are newest, while choosing is so delightfully varied.

And, as everybody knows, much of the likableness of new styles lies in wearing them among the very first, so do come as soon as you can, try on the new Coats and Suits, and see which one seems just meant for you.

Auto Hit Team

Mrs. Addie Thurston met with an accident Friday morning at 7:45 while driving to the village where she does dressmaking. As she went to drive up Tubbs street an auto driven by George Bean of Abany collided with the team, throwing Mrs. Thurston out, knocking the horse down and badly smashing the wagon and harness. Mrs. Thurston was lamed some and her arm was treated at the doctor's. The veterinarian was called and the horse attended to. It was thought it was not internally injured. George Mills chaps cord wood. He is 78 years old. He is working in Paris near the Buckfield line. He followed the sea for forty years.
